Submitting Earth Day Images to the Campus Sustainability Hub

In honor of Earth Day, capture your sustainability impacts with a photo and share it with the AASHE community. Submit a photograph today!

Ideal images:

- Showcase Earth Day programming at your institution, or individual actions related to sustainability by higher education staff or students.
- Have a resolution of 300 dpi at around 8"x10" in size.
- Demonstrate diversity and inclusion by including Black, Indigenous and/or People of Color (BIPOC), and/or diversity in gender, age, ability or other areas.
- Include mask-wearing, social distancing, and other COVID-19 safety protocols if appropriate based on image content.

Please submit one or more images for consideration to AASHE's Campus Sustainability Hub by following the steps below:

- Log in to the Campus Sustainability Hub and go to the Submit a Photograph page.
- Upload your image(s), add a title and brief description of the activity, select your institution name from the "Organization(s)" dropdown and choose the most appropriate sustainability topic(s).
- Provide optional info. We recommend including image caption(s), photographer credit and relevant tags such as "Earth Day".
- Click Submit and receive a Confirmation page and email.

Submitting an image is optional and encouraged. Uploading images through the Hub ensures that your institution will be included in the 2022 Earth Day image gallery (see 2021 gallery) and may result in additional recognition. Thank you!
